PROFILE

Junior Frontend Developer with hands-on experience building production-ready web interfaces using React, Next.js, and TypeScript. Experienced in translating Figma designs into responsive, performant, and scalable UI components, integrating REST API, and collaborating in cross-functional teams. Strong focus on clean code, reusable components, and continuous learning in modern frontend ecosystems.

WORK EXPERIENCE

PT Inspirasi Mandiri Nusantara   **Malang, East Java**
Frontend Web Developer (Intern)   September 2025 - Present

- Developed and maintained frontend features for a production web system using React.
- Translated UI requirements into reusable and maintainable components.
- Collaborated with internal stakeholders to implement features aligned with business needs.
- Applied clean code principles to improve code readability and maintainability.

Academic Competition   **Malang, East Java**
Frontend Developer (Contract)   September 2025 - Present

- Built and maintained a production-ready startup web application using React and TailwindCSS, serving 700+ monthly active users with thousands of page views across user and admin flows.
- Implemented end-to-end features including authentication, user-facing flows, and admin dashboard interfaces actively used in daily operations.
- Integrated REST API to support dynamic data rendering and role-based access flows.
- Collaborated with backend and non-technical stakeholders to deliver features aligned with product requirements.
